BLI – BANQUE DE LUXEMBOURG INVESTMENTS, acting under the commercial name CONVENTUM THIRD PARTY SOLUTIONS is authorised in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier.

Date of production

01/01/2023

What is this product?

Type

This product is a share of an investment company qualifying as an undertaking for collective investment in transferable securities (UCITS).

Term

This sub-fund has no maturity date. However, the manufacturer may decide to close the sub-fund under certain circumstances.

Objectives

The objective of the sub-fund is to grow the capital invested above global equity markets in the long term while aiming to limit the impact of adverse shocks in equity and bond markets in the short term.

The sub-fund will invest its assets in a portfolio composed of equity assets, fixed income assets, time deposits and cash equivalents securities either directly or through investment funds.

The proportion of the sub-fund's assets invested in Equity Assets will vary from time to time based upon the Investment Manager's assessment of risk/return opportunities with however a minimum of 51% of its net assets being invested in Equity Assets.

The investments in investment funds and/or investment funds traded on stock exchanges may not exceed 10% of the net assets of the sub-fund.

The equity assets in which the sub-fund may invest include interests in real estate investment trusts (REITs).

The sub-fund may also invest up to 25% of its net assets in exchange-traded commodities involving precious metals without physical delivery of the underlying metal.

For hedging or portfolio optimization purposes the sub-fund may use financial derivative instruments.

The investment manager integrates and promotes sustainability factors within his investment strategy by applying extra-financial data.

Benchmark: The portfolio is actively managed on a discretionary basis without reference to a benchmark.

Intended retail investor

This product is designed for investors who are willing to achieve income and capital growth and have a medium to long term horizon. The investor can bear losses. This product is appropriate for investors with a basic to advanced knowledge and experience of the product and the markets.

Other information

Depositary: Banque de Luxembourg

Dividend income: This class is a capitalisation class meaning that income is reinvested.

Conversion right: The investor has the right to convert his investment in shares in one sub-fund for shares in the same sub-fund or in another sub-fund. The investor can obtain information about how to convert in the prospectus of the fund.

Segregation: The assets and liabilities of a sub-fund are segregated pursuant to the law so that the commitments and liabilities of one sub-fund do not affect the other sub-funds.

Additional information: Additional information about the fund, copies of its prospectus, the latest annual and semi-annual report and the latest prices of shares may be obtained free of charge from the management company or on www.conventumtps.lu. The prospectus and the periodic reports are prepared for the entire fund and are available in English. The management company may inform you about other languages in which these documents are available.

This sub-fund was launched in 2010 and this share class in 2010.

The currency of the share class is expressed in EUR.

What are the risks and what could I get in return?

Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-

low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

Be aware of currency risk. You may receive payments in a currency that differs from your reference currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The sub-fund is also exposed to the following materially relevant risks that are not included in the summary risk indicator: Other risk factors might exist.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

Recommended holding period: 8 years

Example investment: 10,000 EUR

		If you exit after 1 year	If you exit after 8 years (recommended holding period)
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	4,230 EUR	3,590 EUR
	Average return each year	-57.7 %	-12.0 %
Unfavourable	What you might get back after costs	8,880 EUR	3,590 EUR
	Average return each year	-11.2 %	-12.0 %
Moderate	What you might get back after costs	10,560 EUR	14,980 EUR
	Average return each year	5.6 %	5.2 %
Favourable	What you might get back after costs	12,250 EUR	16,820 EUR
	Average return each year	22.5 %	6.7 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and of a suitable benchmark over the last 13 years. Markets

could develop very differently in the future.

This type of scenario occurred for an investment between 2009 and 2022, by referring to a benchmark between 2009 and 2010.

The stress scenario shows what you might get back in extreme market circumstances.

What happens if SMART VALUE INVESTORS is unable to pay out?

If we are not able to pay you out what we owe you, you are not covered by any national compensation or guarantee scheme. To protect you, the assets are held with a separate company, the depositary Banque de Luxembourg. Should we default, the investments are liquidated and the proceeds are distributed to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding period we have assumed the product performs as shown in the moderate scenario
- 10,000 EUR is invested

	If you exit after 1 year	If you exit after 8 years
Total costs	180 EUR	1,141 EUR
Annual cost impact (*)	1.8 %	1.8 % each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 7.0% before costs and 5.2% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee for this product.	0 EUR
Exit costs	We do not charge an exit fee for this product.	0 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.5% of the value of your investment per year. This is an estimate based on actual costs over the last year.	150 EUR
Transaction costs	0.3% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	30 EUR
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	0 EUR

The conversion of part or all of the shares is free of charge.

How long should I hold it and can I take money out early?

Recommended holding period: 8 years

You should be prepared to stay invested for 8 years. However, you can redeem your investment without penalty at any time during this time, or hold the investment longer. Redemptions are possible on each full bank business day in Luxembourg. In exceptional circumstances, your right to request the redemption of your investment may be limited or suspended.

How can I complain?

If you have any complaints about the product, the conduct of the manufacturer or the person that advised on or sold this product, you can use different communication channels: by e-mail to domiciliation@conventumtps.lu, by letter to 16, boulevard Royal, L-2449 Luxembourg, by phone calling the number (+352) 26 26 99 1.

In all cases, the complainant must clearly indicate his/her contact details (name, address, phone number or email address) and provide a brief explanation of the claim. More information is available on our website www.conventumtps.lu.
